ISTE CHAPTER – SPECIAL LECTURE –MOTIVATIONAL TALK

ENNAI ARINDHAL(15-07-2015)

The chief guest for the event was Jc.Manju Anand,M.Sc.,M.Phil,National Trainer,JCI India.In that session, he gave a special talk to the students about Ennai Arindhal.

Today, we have become Vanier graduates. The home of the cheetahs is now also the home of tomorrow's doctors and lawyers, teachers and psychologists, musicians and engineers, architects and nurses. No matter what our reasons were for choosing Vanier so very few years ago, what is important now is that we are all here tonight to celebrate our triumphs, our achievements, our victories both individually and as a school, and the journey on which we have all embarked toward our future destinations.

Each of us has had our own unique experiences at Vanier; a combination of good times and bad times, times of laughter and of joy, times of school spirit, and of course, times of last-minute studying for that exam that we forgot was taking place tomorrow morning.

(Good thing for Starbucks!) Graduation marks the end of yet another extraordinary chapter in our lives. With this chapter closed, I am certain that many of us are already anxious about starting the next one because, unlike an English book, we cannot skip through the pages of life to see how long the next chapter is going to be. We all have our own book of life that has not yet been written and every day that passes is another page we write in ourselves. Luckily, as Vanier graduates, we have been given all of the paper and ink we need to write our own stories. And with the love and support of our families, friends, and fellow graduates, our stories will become best sellers. One thing that I will reflect upon as I throw my graduation cap in the air is the way that Vanier has been my home away from home for the past few years. As one of our generation's most inspirational motion pictures said, coming into Vanier, I felt like a one man wolf pack. In fact, I'm sure many of us felt exactly the same way. During our time at Vanier, we have all met so many new people, made lasting friendships, lived through lifelong memories, and added many new members to our wolf packs. And I'm sure you can agree that waking up on Monday morning was never an easy task, but knowing that the rest of our pack was there made it all a little easier. So, as we all begin writing our next chapter, let us all remember that sense of family that helped us get through Monday morning classes, or better yet, how our friends were our support system.

Thus she concluded the speech by wishing all the students for their successful endeavours.

ENNAI ARINDHAL (15-07-2015)

IMPACT ANALYSIS REPORT

In positive motivational self-talk group, the participants expressed one of these phrases "I can", "I'm talented", "I will get the highest point" such that to hear their voices and then performed shoot skill. In negative motivational self-talk group, they expressed one of these phrases "I cannot", "I'm not talented", and "I will get the lowest point". In instructional self-talk group, the participants expressed one of these phrases "Look at the goal", "Eye-ball-goal", "Height of foot from ground will be 5 centimetres when hits the ball" before performing the skills. The control group exercised the skill for 6 sessions without specific self-talk instruction; the tester only asked them to show their best performance.

The findings showed that positive motivational self-talk and instructional self-talk significantly improved soccer shoot accuracy performance of participants compared to other research groups.

This finding is consistent with research results they showed the positive effect of positive motivational self-talk and instructional self-talk. It The impact of instructional and motivational self-talk on cognitive anxiety, somatic anxiety, and learning The participants' expertise may be a probable reason for this inconsistency, because the above-mentioned research studied professional athletes and this study examined the beginners.

HIGHER EDUCATION CELL

SEMINAR REPORT

The session starts with Prayer song followed by the chief guest introduction **Mr. Michael Thoma, F+U Academy of Languages, Germany** and **Mr. Shankar, Regional Director WWE, Salem** and welcome Address by the higher education cell co-ordinator, invite all respected chief guests and students with immense pleasure. The Felicitation address has given by Principal **Dr. M. Venkatesan** address to the students to follow our Chief guest inputs and to concentrate on career. Then the session proceeded by our guest **Mr. Michael Thoma, F+U Academy of Languages** about the Internationalisation of higher education: An aspect of India's foreign relation.

In discussion, the key to internationalisation in indian higher education lies in the ability of its universities and colleges to attract foreign faculty and students to India. India has huge potential to do so: Its position in the global economy; the tremendous talent in its institutions and latent in the demographic bulge of young people who currently at college and heading towards its universities; and the strong foundations and relationships that have been built through growing international partnerships in research and teaching. Internationalisation needs strategic international cooperation and planning at system and institutional levels to create an enabling environment which encourages the flow of international students and faculty, and which incorporates it into the positive transformation of their institutions. Having been part of the internationalisation of the world's universities, this is time for the second phase of India's contribution to internationalisation in higher education – bringing it to India.

Mr. Shankar, Regional Director WWE, Salem discussing about the challenge concerns how India and Indian higher education is perceived by students and academics in the germany and elsewhere. Students need to be aware of the opportunities to study in India; the profile of Indian institutions needs to grow internationally to be more visible to young people abroad. A range of awareness raising activities is needed to build a lasting reputation with international students.

National, international and institutional barriers to credit recognition and quality assurance are also significant. Students want recognition for their studies abroad, and

they and their institutions want to be certain of the quality of education they will receive. Infrastructure, including classrooms, labs, equipment and living quarters need to meet mutually acceptable standards and expectations.

A flexible approach to the study abroad experience is important by both the sending and receiving institutions to incorporate different lengths of time at different levels of study, with correspondingly responsive visa regulations and permissions. Financial arrangements have to be realistic and clear to students and institutions.

Finally, both the receiving institution and the students (national and foreign) need to be prepared for the experience; intercultural awareness and an open mindset are important for the study or faculty visit to be successful and mutually beneficial.

Venue: EEE Seminar Hall

Nowadays, high unemployment rate has been a major problem that government is tackling with. However, there are ways to alleviate unemployment, such as providing education and training for those fostering the spirit of entrepreneurship.

Entrepreneurship development cell of KSRIET conducted the guest lecture on the title "Entrepreneurship Understanding start-Ups". This program was conducted to create interest to become an entrepreneur and awareness about entrepreneurship. All the third year students (85 students) of all departments were participated in this program.

Dr.M.Ramakrishnan, Associate professor, KSR School of Management, KSRCT was the chief guest of this camp. He shared the detailed information about the entrepreneurship. And also he explained the ways that lead us to be a successful young entrepreneur. He created awareness about the various schemes followed by government for budding engineers to emerge as young entrepreneurs. This lecture fed clear ideas to students for writing proposals to central and state government schemes and how to get funding for their proposals.

Two Decades of preparing to be an entrepreneur

Entrepreneur in making

June 1999 - April 2015 (18 years 11 months)

Two decades of great learning with many reputed organizations honing my skills in sales & relationship management. Guided and mentored by industry veterans. Traveled throughout the country and abroad drifting from telecom to healthcare and finally anchoring in higher education & edtech. Donned many hats from that of front end sales & service manager to heading sales organizations across multiple geography. A period of metamorphosis from a college-level bookish knowledge to relationship builder with a strong sales passion. Laid foundation to tackle many challenges that are to come my way as an entrepreneur. I had the opportunity to a part of the growth story in companies like Tata Telecom, BPL Telecom, Punjab Wireless, MModal, Network to along the way..
