SEMINAR REPORT

The session starts with Prayer song followed by the welcome address by the higher education cell co-ordinator **J.Divakaran**, invite the respected chief guests and students with immense pleasure. The Felicitation address has given by Principal **Dr. M. Venkatesan** address to the students that to know the opportunities in abroad. Than chief guest **Osama Syed, Business development consultant** address the gathering about the higher education opportunities in abroad.

In discussion, they discuss about the education system in germany and Canada. The German education system is different in many ways from the ones in other countries and the classes are conducted in German. Public universities are financed by the government and do not charge tuition fees or just charge a small amount of money as Administration Fee at the start of academic every year. Private universities in-contrast are financed by the fees paid by students and these can be quite expensive. Germany has a larger number of public universities than private ones. German law says that education should be offered to everyone and everyone should be able to afford adequate education. Therefore, in some areas, the tuition fee was abolished, while in other areas it's very small.

Germany is generally a safe country, and while crime in Germany exists, it is rather low-scale. Violent crime in Germany is rare. Most Germans don't feel that their safety is threatened by terrorism. The need for security measures in public spaces has also increased in Germany in recent years. As a result, security cameras have become common in public areas and in buses, local trains, and trams. Signs indicate the presence of video monitoring.

Students applying for an undergraduate course in Germany have to undertake a one - year bridge programme as it is to compensate for 13 years of schooling requirement in Germany compared to 12 years in India. In order to be eligible for this bridge course, students from India must have basic knowledge of the German language. International applicants have to take a language test for Germany like TestDaF (Test of German as a Foreign Language) or DSH (German Language University Entrance Examination) before they can enroll in a degree programme.

For each course, Indian students will need to meet a minimum German language requirement. Along with that, a minimum academic record of 70% and above in Standard XII will be required. Foundations and Diploma programs are available for students who have secured around 60%. The student should have completed 18 years of age before joining a degree program.

A flexible approach to the study abroad experience is important by both the sending and receiving institutions to incorporate different lengths of time at different levels of study, with correspondingly responsive visa regulations and permissions. Financial arrangements have to be realistic and clear to students and institutions.

Finally, both the receiving institution and the students (national and foreign) need to be prepared for the experience; intercultural awareness and an open mindset are important for the study or faculty visit to be successful and mutually beneficial. Than the vote of thanks has been done for the gratitude.

SEMINAR REPORT

The session starts with Prayer song followed by the chief guest introduction about **Mr. S.Sudhakar** and welcome address by the higher education cell co-ordinator, invite all respected chief guests and students with immense pleasure. The Felicitation address has given by Principal **Dr. M. Venkatesan** address to the students to follow our Chief guest inputs and to concentrate on career. Then the session proceeded by our guest **Mr.S.Sudhakar** about an aspect of Indian universities offer GATE and CAT exam.

The Graduate Aptitude Test in Engineering (GATE) is an examination that primarily tests the comprehensive understanding of various undergraduate subjects in engineering and science. GATE is conducted jointly by the Indian Institute of Science and seven Indian Institutes of Technologies at Roorkee, Delhi, Guwahati, Kanpur, Kharagpur, Chennai (Madras) and Mumbai (Bombay) on behalf of the National Coordination Board – GATE, Department of Higher Education, Ministry of Human Resources Development (MHRD), Government of India.

The GATE score of a candidate reflects the relative performance level of a candidate. The score is used for admissions to various post-graduate education programs (e.g. Master of Engineering, Master of Technology, Doctor of Philosophy) in Indian higher education institutes, with financial assistance provided by MHRD and other government agencies. Recently, GATE scores are also being used by several Indian public sector undertakings (i.e., government-owned companies) for recruiting graduate engineers in entry-level positions. It is one of the most competitive examinations in India. GATE is also recognized by various institutes outside India, such as Nanyang Technological University in Singapore.

A valid GATE score is essential for obtaining financial assistance during Master's programs and direct Doctoral programs in Engineering / Technology / Architecture and Doctoral programs in relevant branches of Science in Institutes supported by the Ministry of Human Resources Development (MHRD) or other Government agencies. As per the directives of MHRD, the following procedure is to be adopted for admission to the post-graduate programs (Master's and Doctoral) with MHRD scholarship/assistant-ship: Depending upon the norms adopted by a specific institute or department of the Institute, a candidate may be admitted directly into a course based on his/her performance in GATE only or based on his/her performance in GATE and an admission test / interview conducted by the department to which he/she has applied and/or the candidate's academic record. If the candidate is to be selected through test/interview for post-graduate programs, the minimum of 70% weight is given to the performance in GATE and the remaining 30% weight can be given to the candidate's performance in test/interview and/or academic record. The admitting institutes can, however, prescribe a minimum passing

percentage of marks in the test/interview. Some colleges/institutes specify GATE qualification as the mandatory requirement even for admission without MHRD scholarship/assistant-ship.

The session was fantabulous could gain some knowledge about higher education opportunities and vote of thanks given by **J.Divakaran**. Its been a tremendous words by the chief guest and the student motivate towards the technical exam and interested to apply for the competitive exams.

SUGGESTIONS

Need more inputs for enhancing skills of Girl students
 It would be better if these sessions were organized during the study of 3rd year.
