

K S R Institute for Engineering and Technology

(Approved by AICTE New Delhi & Affiliated to Anna University Chennai)

BE (CSE,EEE,ECE,Mech)&B.Tech (IT) Programmes are Accredited by NBA

6.3.3. PROFESSIONAL DEVELOPMENT /ADMINISTRATIVE TRAINING PROGRAMS ORGANIZED BY THE INSTITUTION FOR TEACHING AND NON TEACHING STAFF DURING THE LAST FIVE YEARS

S.No.	Title of the professional development program organised for teaching staff	Page No.
ACADEMIC YEAR 2016–2017		
1.	Python Programming	6 – 8
2.	E-learning :Challenges and Opportunities	9 – 10
3.	Soft Computing	11 – 12
4.	Firewall Installation, Configuration & Management	13 – 14
5.	Teaching techniques	15 – 16
6.	Data Science	17 – 18
7.	Data center virtualization	19 – 20
8.	Privacy Defender – Protecting Leakage of Photos on Social Media	21 – 22
9.	Analysis of Algorithm	23 – 25
10.	Data Science and Big data Analytics	26 – 27
11.	Rejuvenation of Technical Education	28 – 29
12.	Introduction to R programming	30 – 31

13.	PHP programming	32 – 33
14.	Project Based Learning ‘PBL’ in JAVA J2EE	34 – 35
15.	Free and Open Source Software	36 – 37
16.	Embedded system design using ARM Microcontroller	39 – 40
17.	Contemporary Research avenues and Challenges in Intelligent Control system using Lab view	41 – 42
18.	Medical Informatics Extraction Using Soft Computing Techniques	43 – 44
19.	Applications on mathematical models in Digital Image Processing	45 – 46
20.	Entrepreneurship	47 – 48
21.	Recent Advances in UHV Transmission and Distribution	49 – 50
22.	Effective Public Speaking	51 – 52
23.	Seminar on Application of Fin Concept	55 – 65
24.	Seminar on Recent innovation in Cryogenic Machining	66 – 76
25.	Seminar on Analysis of The Thrust Force and Torque in Drilling FRP Composite Material	77 – 87
26.	Seminar on Modeling And Analysis of Herringbone Gears Using Windmill Gearbox	88 – 98
27.	Seminar on Cryogenic Machining	99 – 109
28.	Seminar on Synthesis and Characterization of Al6063 and Silicon Matrix	110 – 120
29.	Seminar on An Over View of Additive manufacturing	121 – 131
30.	Seminar on Failure Analysis of EN36C Borewell Drill Bit	132 – 142
31.	Seminar on Study on Morphological And Physico–Mechanical Properties of SBR Nano Composite	143 – 153
32.	Seminar on Partial Substitution of Eggshell Powder in Concrete	154 – 164

33.	Multilevel Network Security Combining Cryptography and Steganography on ARM platform	166 – 168
34.	Wireless Sensor Networks: A Survey on Recent Developments and Potential Synergies	169 – 171
35.	A Survey of Digital Watermarking Techniques and its Application	172 – 174
36.	Joint Cost and Secured Node Disjoint Energy Efficient Multipath Routing in Mobile Ad Hoc Network	175 – 177
37.	Research on Computer Network Virus Defense Technology in Cloud Technology Environment	178 – 180
38.	Crowd sourcing in Software Engineering: Models, Opportunities and Challenges	181 – 183
39.	Acharyaa – Learn to Teach the 21st century students	184 – 186
40.	Induction and Orientation Programme	187 – 191

S.No.	Title of the professional development program organised for Non teaching staff	Date
ACADEMIC YEAR 2016–2017		
41.	Orientation Programme on MS Office and System Configuration	192 – 202
42.	Training Program on Basics of House Wiring	203 – 205
43.	Free Eye Camp	206 – 210

ACADEMIC YEAR
2016 - 2017

K S R INSTITUTE FOR ENGINEERING AND TECHNOLOGY
Department of Computer Science and Engineering
FISH (Faculty Idea Sharing)
ACADEMIC YEAR 2016-2017
Schedule

All Faculty members are informed to prepare their topic as per the scheduled date.

S.No	Staff Name	Topic	Date Scheduled	Actual Date
1.	Mr.S.Saravanan	Python Programming	20/06/2016	30/06/2016
2.	Ms.N.Sharmila	E-learning :Challenges and Opportunities	01/07/2016	19/07/2016
3.	Ms.L.Priyanka Devi	Soft Computing	15/07/2016	30/07/2016
4.	Mr.V.Gopinath	Firewall Installation, Configuration & Management	01/08/2016	16/08/2016
5.	Mr.R.Venkatesan	Teaching techniques	12/08/2016	31/08/2016
6.	Mrs.V.Thangamani	Data Science	01/09/2016	19/09/2016
7.	Mr.R.Gopal	Data center virtualization	15/09/2016	28/09/2016
8.	Mrs.P.Sumathi	Privacy Defender – Protecting Leakage of Photos on Social Media	03/10/2016	20/10/2016
9.	Ms.D.Kavinya	Analysis of Algorithm	01/11/2016	19/11/2016
10.	Mr.M.Jawahar	Rejuvenation of Technical Education	01/02/2017	28/02/2017
11.	Mrs.R.Deebika	Introduction to R programming	03/03/2017	31/03/2017
12.	Mr.P.Krishna Sankar	PHP programming	04/04/2017	25/04/2017
13.	Mr.K.Sriram Kumar	Project Based Learning 'PBL' in JAVA J2EE	29/04/2017	17/05/2017
14.	Mr.V.Prakasham	Free and Open Source Software	02/05/2017	30/05/2017

 PRINCIPAL,
 K. S. R. INSTITUTE FOR
 ENGINEERING AND TECHNOLOGY,
 K. S. R. KALVI NAGAR,

Fig. MERF Seminar Talk by Mr. P.Chakravarthi on 20.07.2016 at 12.45 pm

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about recent technology and share their idea among other students. This seminar briefed about the various applications of Fins and also provided the various research opportunities available to carry out project work as well as funding.

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about recent technology and share their idea among other students. By this seminar others get to know about the Machining applications as alternate Machining for many uses. By studying this concept we can easily manufacturing the components using machining process.

Fig. MERF Seminar Talk by Mr. P.Manikandan on 21.09.2016 at 12.45 pm

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about recent technology and share their idea among other students. By this seminar others get to know about Modelling and analysis of herringbone gears using windmill gearbox. By studying this concept we can know the herringbone applications. The double-helical gear, also referred to as the herringbone gear is used for transmitting power between parallel shafts. It was developed to overcome the disadvantage of the high-end thrust that is present with single-helical gears.

Fig. MERF Seminar Talk by Mr. S.Balamurugan on 13.10.2016 at 12.45 pm

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about recent technology and share their idea among other students. By this seminar others get to know about the Cryogenic machining. Cryogenic Machining is the process of using Liquid Nitrogen (LN2) as the coolant for machining instead of ordinary flood or mist coolants. It can produce some amazing results in hard material—good enough to offset the expense of the special equipment and LN2 needed to perform this kind of work.

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about recent technology and share their idea among other students. By this seminar others get to know about the Synthesis and characterisation of Al6063 and silicon matrix. Al6063 and silicon matrix matrix composites have considerable applications in automobile, military industries, aerospace, building constructions and others due to light weight, thermal properties, stiffness, high mechanical strength, corrosion resistance

Fig. MERF Seminar Talk by Dr. S.Nandhakumar on 11.01.2017 at 12.45 pm

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about recent technology and share their idea among other students. This seminar focused about the over view of additive manufacturing. Additive manufacturing has several benefits over subtractive manufacturing. First the amount of material required is less than for a traditional subtractive method where material is removed from a block until the part geometry is achieved. Additive manufacturing can reduce time and cost of manufacturing.

Fig. MERF Seminar Talk by Mr. K.Kavinraj on 08.03.2017 at 12.45 pm

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about recent technology and share their idea among other students. This seminar provided a detailed overview about Study on morphological and Physico-Mechanical properties of SBR Nano composite. The presence of hydroxyl groups on α -cellulose has generated immense eagerness to map its potency as filler in an elastomeric composite. In the present work, α -cellulose-emulsion-grade styrene butadiene rubber (E-SBR) composite is prepared by conventional rubber processing method by using variable proportions of α -cellulose (1 to 40 phr) to assess its reinforce ability

Fig. MERF Seminar Talk by Mrs. V.Sobiya on 16.03.2017 at 12.45 pm

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about recent technology and share their idea among other students. This seminar provided a detailed overview about the Partial substitution of eggshell powder in concrete. Eggshell powder of various amounts, namely 5%, 10%, 15% and 20% by volume, was added as a replacement for ordinary Portland cement. It can be concluded that the optimum percentage of oven-dried eggshell powder as a partial cement replacement is 15%

Multilevel Network Security Combining Cryptography and Steganography on ARM platform

Abstract

This paper presents two level data security in Network system. Cryptographic algorithm BLOWFISH and Steganography algorithm List significant Bit (LSB) are used for data security. Confidential information is encrypted by BLOWFISH algorithm, and then encrypted data hide into image by LSB algorithm of Steganography. For more security we used iris image of authorized person to hide encrypted data. The keys required for BLOWFISH algorithm is generated from same iris image. These two algorithms implemented on 32 bit ARM 7. In the result of project include memory utilization, processing time for encryption and decryption etc. this project gives better security for embedded systems like mobile, smart card, ATM etc.

Wireless Sensor Networks: A Survey on Recent Developments and Potential Synergies

Abstract

Wireless sensor network (WSN) has emerged as one of the most promising technologies for the future. This has been enabled by advances in technology and availability of small, inexpensive, and smart sensors resulting in cost effective and easily deployable WSNs. However, researchers must address a variety of challenges to facilitate the widespread deployment of WSN technology in real-world domains. In this survey, we give an overview of wireless sensor networks and their application domains including the challenges that should be addressed in order to push the technology further. Then we review the recent technologies and testbeds for WSNs. Finally, we identify several open research issues that need to be investigated in future.

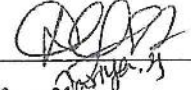

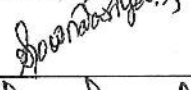

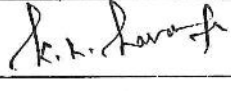

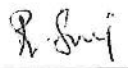

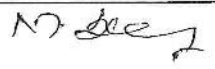

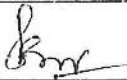

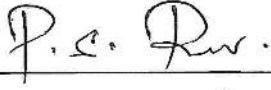

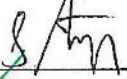

Our survey is different from existing surveys in that we focus on recent developments in wireless sensor network technologies. We review the leading research projects, standards and technologies, and platforms. Moreover, we highlight a recent phenomenon in WSN research that is to explore synergy between sensor networks and other technologies and explain how this can help sensor networks achieve their full potential. This paper intends to help new researchers entering the domain of WSNs by providing a comprehensive survey on recent developments.

A Survey of Digital Watermarking Techniques and its Applications

Abstract

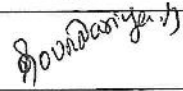

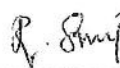

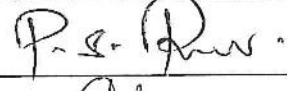

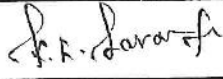

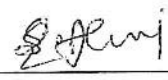

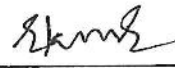

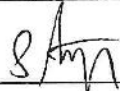

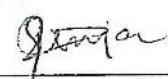

Watermarking, which belong to the information hiding field, has seen a lot of research interest. There is a lot of work begin conducted in different branches in this field. Steganography is used for secret communication, whereas watermarking is used for content protection, copyright management, content authentication and tamper detection. In this paper we present a detailed survey of existing and newly proposed steganographic and watermarking techniques. We classify the techniques based on different domains in which data is embedded. We limit the survey to images only.

Joint Cost and Secured Node Disjoint Energy Efficient Multipath Routing in Mobile Ad Hoc Network

Abstract

The severe resource constraints and deployment environments of mobile ad hoc networks (MANETs) pose challenges for the security and energy consumption during data transmission for these networks. Multipath routing and energy consumption are the important factors to be considered in mobile ad hoc network as it provides a powerful tool for studying security aspects during data transmission. Advances in MANET technology have provided the availability of energy efficient reliable and multi path routing for intrusion tolerance with capability of identifying reliable routes, determining the best redundancy level to increase the operational lifetime of the network. Identifying a secured and energy efficient multipath routing for MANET represents the basic challenge during data transmission. In order to overcome such limitation, a hybrid method called as joint cost and secured node disjoint energy-efficient multipath routing (NDE-MR) is designed for MANET to reduce the energy consumption and execution time during the multipath routing and to improve security during data transfer. Node initialization initializes the mobile nodes with energy efficient model by obtaining the neighbor node data. Next, cost-based multipath route discovery model identifies the path with the least transmission cost through which data forwarding is made. Finally, security is achieved through node disjoint path model by splitting the data packets into different segments. Simulation results show that the NDE-MR model is able to reduce energy consumption and execution time during multipath routing and to increases the security of the network.

Computer Network Virus Defense Technology Based on Data Mining Technology

Abstract

The expansion of the application scope of computer networks in the current situation has brought important guarantee of the continuous improvement in the production level of China's information industry. In this context, in order to achieve the safe use of computer network, making it practical to effectively deal with the virus, you need to strengthen the use of the virus defense technology associated with it, enrich the computer network virus defense technology content, enhance the applicability of the technology in the data mining technology. Therefore, this article discusses the technology of computer network virus defense based on data mining.

Crowdsourcing in Software Engineering: Models, Opportunities and Challenges

Abstract

Almost surreptitiously, crowdsourcing has entered software engineering practice. In-house development, contracting, and outsourcing still dominate, but many development projects use crowdsourcing—for example, to squash bugs, test software, or gather alternative UI designs. Although the overall impact has been mundane so far, crowdsourcing could lead to fundamental, disruptive changes in how software is developed. Various crowdsourcing models have been applied to software development. Such changes offer exciting opportunities, but several challenges must be met for crowdsourcing software development to reach its potential.

TRAINING AND PLACEMENT CELL

Training Programme [2016 – 2017] Even Semester

Ref: KSRIET/T&P/CIR/2016-17

Date: 18.04.2017

This is to inform all the HoDs and Faculty members that it has been planned to conduct Training Programme on “Acharyaa - Learn to Teach the 21st century Students” through Junior Chamber International Erode on 25.04.2017 & 26.04.2017. In this regard, HoDs are kindly requested to provide 50% of faculty members on 25.04.2017 & remaining 50% of faculty member on 26.04.2017. Herewith we have enclosed the Faculty name list with Department. Kindly mention the date on which the faculty members are going to attend the programme.

Two days training programme on “Effective Public Speaking - Improving Gestures, Postures & Speaking Skills” is also planned on 24.04.2017 & 25.04.2017 for 33 faculty members. Herewith we have enclosed the name list of the selected faculty members by the principal. They should also attend the “Acharyaa- Training Programme” on 26.04.2017. All the faculty members are asked to utilize this Training Programme.

Faculty Induction and Orientation Programme

Ref: KSRIET/T&P/CIR/2016-17/01

Date: 04.06.2016

This is to inform all the HoDs and the faculty members that “Induction and Orientation Programme” for the faculty members joined in the academic year 2015-16 and 2016-17 has been planned for 4 days from 07.06.16 to 10.06.16. The schedule and list of faculty are enclosed. All the faculty members are asked to attend the programme compulsorily and strictly follow the timing and schedule.

Venue: ECE Seminar Hall

Time: 9 am to 4.15 pm

Tea Break: 10.30 am to 10.45 am & 2.45 pm to 3 pm

Lunch: 12.15 pm to 01.15 pm

ASSESSMENT QUESTIONS

Date : 09.08.2016 to 13.08.2016

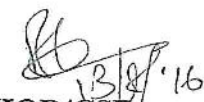

Time: 2 Hr

1.	Create a formal letter using a suitable word processing package, like MS Word, to place a purchase order for procurement of books. Use tables for list of books.
2	Use Microsoft PowerPoint to create a slideshow for Input and Output Devices. Your presentation must contain at least five slides, should be eye-catching and have a creative use of visual and audio effects.
3	Create a table for student information with at least 7 columns.
4	Create and Design Admission/Enquiry Forms
5	Hands on Training on Installation/Uninstallation of Windows on Computer.
