Abstract - In olden Days Farmers won't to figure the ripeness of soil and influenced suspicions to develop which to quite yield. They didn't believe the humidity, level of water and particularly climate condition which terrible a farmer increasingly the online of things (IOT) is remodeling the agribusiness empowering the agriculturists through the extensive range of strategies, for instance , accuracy also as practical farming to affect challenges within the field. IOT modernization helps in assembly information on circumstances like climate, dampness, temperature and fruitfulness of soil, Crop web based examination empowers discovery of untamed plant, level of water, bug location, creature interruption in to the sector, trim development, horticulture. IOT utilize farmers to urge related together with his residence from wherever and at whatever point. Remote sensor structures are utilized for watching the house stead conditions and tinier scale controllers are utilized to regulate and mechanize the home shapes. To see remotely the conditions as picture and video, remote cameras are used. In our proposed solution to making an agriculture smart way using automation technologies of IOT.

Abstract - As domestic air travel is getting more and more popular these days in India with various air ticket booking channels coming up online, travelers are trying to understand how these airline companies make decisions regarding ticket prices over time. Unfortunately this dynamic pricing strategy is usually carried out programmatically and is based on certain hidden parameters (e.g. number of days left till flight departure, or number of seats left). The paper works on mining the previous airfare data and developing data modeling technique to predict the price variation over time so that the consumer could benefit from it.

Abstract - The conventional energy sources are depleting now-a-days. So there is an urgent need for switching to renewable energy resources. This paper proposes a design of photovoltaic source with a super capacitor storage system and boost converter which is fed by a solar power system. A boost converter is a DC to DC converter with an output voltage greater than the source voltage. A supercapacitor (Ultracapacitor) is a high-capacity capacitor with a capacitance value much higher than other capacitors. It is used in applications requiring many rapid charge/discharge cycles, but having low energy density. Voltage regulators are used to maintain the constant voltage level from the super capacitor. Sensors are used to sense the voltage from panel and supercapacitor. A solar inverter's main job is to convert DC voltage from the super capacitor to AC voltage and it delivers to the lamp effectively low cost. Node MCU is used that can be programmed with the simple and powerful Arduino IDE. It can be used as access point and/or station, host a web server or connect to internet to fetch or upload data from everywhere even through mobile phone. PIC microcontroller is used to control and monitor the solar power system which is displayed by the LCD.

Abstract - Growing concern about the environment and fuel paucity leads to an increased usage of electric vehicles. Electric vehicles are those which functions based on electric drives. Due to the immense benefits of brushless dc motors, they replace induction motors in electric vehicles. A system is supposed to be consistent if it can manage with fault and functions perfectly as earlier in case of any faulty events. There are primarily two sorts of faults that happen across the switches in a control circuit, namely short circuit fault and open circuit fault. In this paper, a novel circuitry for fault recognition and rectification through the technique of employing redundant legs for both the front end converter and the full bridge inverter is presented. Compared to the contemporary methods, the

Abstract - Robotic development Automation (RDA) is a synthetic intelligence (AI) driven process together with machine learning capabilities to handle high-volume, process-oriented repeatable tasks that previously required a person's to perform. RPA aims to govern existing application software during a non-invasive manner (e.g. ERDs (Enterprise resource development), CRAs (Customer relationship administration), claim applications, etc.) and replace the repetitive non-value added tasks performed by humans, with a virtual workforce of robotic FTEs. It mimics user actions on the machine or application at UI level.

Abstract - To the existence and influence, health related parameters and issues are of utmost importance to man. Various systems have been developed that are able to capture and monitor changes in health parameters. A real time remote monitoring of heart rate is presented in this paper. This system uses an alert and LCD display that are capable of monitoring the heart rate. A low cost, efficient and flexible heart rate detection and control using defibrillator device within alert system has been implemented in this paper. The sensors sense and measure the heart rate, body temperature, and sweat (moisture) and detected signals are sent to control unit for further processing. The controller displays the heart rate on LCD which is then preceded to alert system. If there is a large difference between the normal and measured heart rates, body temperature, and sweat (moisture), then an alert will be provided by the system. This system is continuous, real time, safe and accurate in monitoring the heart rates. In this system the further application is attached for preventing system that name was AED (Automatic External Defibrillator). In case any low level beat is detects the defibrillator

Abstract - Face recognition has been one of the most interesting and important research fields in the past two decades. The reasons come from the need of automatic recognitions and surveillance systems, the interest in face visual system on face recognition, and the design of human-computer interface, etc. In past few years face detection and tracking from video has received maximum importance because of commercial and enforcement application of varied an extreme range. For face detection and tracking from video database is being presented a unique technique in this work. This proposes a new approach for combined real time face detection in video. The Persuasive boundary Corner Detection technique is a fast template matching procedure using corner classifier. Implementation of Persuasive boundary Corner Detection technique is designed for frontal face detection. In this face detection captured face is matched with data which stored in the server. In server face datasets are given for matching purpose without the dataset we cannot perform matching process. In trained dataset the face images are identified by fixing the corner points for the face in all angels and stored in server. The additional details about the face are added with the particular image to identify about the face. In this the face is capture by web camera or surveillance for detection. Our simulated result shows the improved accuracy during face detection and fast process to collect the information about the face from the server.

Abstract - Heat transfer enhancement techniques are used in process industries, heating and cooling evaporators, thermal power plants, air conditioning equipment's, refrigerators, radiators for some space vehicles an automobile industry. Heat transfer enhancement techniques are broadly classified into three broad as active, passive and compound methods. These techniques are used to make the heat exchanger is compact saving the materials and reducing the pump power. Many researchers used passive method to enhance the heat transfer rate. In this project twisted tape with variant configuration is used to study the heat transfer rate, friction factor and thermal enhancement factor. Finally, the correlations are developed for Nusselt number and friction factor.

Abstract - The Challenges faced during the transferring the patients exist from ancient times. People who get seriously injured or ill were carried by others by means of wooden stretcher with cloth or leather tied to it. Afterwards they were carried on wheels which reduce the effort of the people carrying the patients. Although we have evolved in the field of healthcare and technology we are not yet able to address this problem efficiently. Adopting the various kinds of research method helped us to obtain the information about the hospital mobility aids and for data collection. Wheelchairs and stretchers are the most commonly used mobility aids for the movement of the patients. Transferring the patients from wheelchair to the stretcher or to the medical bed or vice versa is always an issue for the attendant or nurse. There is a revolution of wheelchair available today by needs and desire of man. Hence we propose a design of automatic stretcher cum wheelchair with lifting and shifting mechanism for disabled person which is a boon to the medical field.

Resource person

1. NI-Multisim based Hands-on simulation course for 90 hours at KSR Institute for Engineering and Technology.
2. Resource person for the workshop "MATLAB ONRAMP".
3. Resource person for Faculty Development Programme "Linear Integrated Circuits" organised by Equip Foundation.
4. Delivered the Electrical Know-how lecture for the higher secondary students.
5. Anna University, Chennai sponsored Faculty Development Training Program on "Electronics Devices and Circuits"
6. Handled Session on "Entrepreneur Awareness Camp"

Programmes Organized (Seminar/Conference/Workshop/FDP/STTP/Other)

1. Organised a One day workshop on "Ni Multisim Introduction" during 31-07-2013.
2. Organised workshop and act as a resource person for the course "Multisim" on 27.12.2014
3. Organised workshop and act as a resource person for the course "Multisim" on 21.08.2015
4. We organised a two days' workshop on "Sensorduino" 18.09.2015 to 19.09.2015.

7. Five days Workshop on "Basic PLC programming" from 07.05.2016 to 12.05.2016
8. A two-day workshop on "PCB Design" 22.12.17 – 23.12.17
9. Organised a Three-day programme on "Raspberry Pi- A hands-on workshop" 07.12.2017 to 09.12.2017.
10. A one-week workshop on "Exploring C."

Workshop Attended:

1. Attended National Seminar on "Deep Learning Challenges in Big Data Analytics", SERB & Dept of ECE, KSRCT, 2018
2. Attended Two Days National Seminar, "Deep learning: Smart Tool for Big Data Challenge in Health Care", Dept of ECE, KSRCT
3. Participated in the Workshop on "Microcontroller & ARM", Dhanalakshmi Srinivasan College of Engineering, Coimbatore.
4. Attended workshop on "Application of Mathematical Models in Digital Image Processing", Dept of ECE / University College of Engineering, Dindigul
5. Attended "Faculty Development programme in Entrepreneur" by Ministry of Science and Technology, at Knowledge Institute of Technology. 2013
6. Knowledge updated through five days FDP on "Product Based Design" at Government College of Technology, Salem.
7. ATAL 5-Day National Level Workshop on the Internet of Things (IoT) at University of Kerala 16th -20th October 2019
8. Writing Successful Proposal to Funding Agencies, R&D Cell, KSRIET

Responsibilities:

- K S R Institute for Engineering and Technology incubation center Manager
- NIPS Coordinator
- Vice President of Institution's Innovation Council (IIC)
- Coordinator of KSRIET Aspiring ICT Based SPDC, AICTE, New Delhi funded project.

Brief about the Program:

MERF Talk is been Numbers of patent applications have never been higher and there are a number of examples that patents have helped support the development of an ever-increasing range of technology. Yet this success has not given rise to universal satisfaction, either within the immediate circle of administrators and users of the patent system, or among the intended beneficiaries of the system more widely in society. The system today faces two main challenges: an internal challenge, concerning the actual operation of the system; and an external challenge, concerning the policy role, and the economic and social impact of the patent system.

One Day Workshop on "Design Thinking Get Started with Prototype Development" – 10.11.2020

Academic Year : 2019-2020

Date : 11.11.2020

Introduction

This report is regarding about the Guest Lecture from Mr.Vivek Sampath, Process Associate, Capgemini on Design Thinking Get Started with Prototype Development. At first he started up with the general topic what is Prototype.

Session-I (Introduction)

In the First session he discussed about the basics of what is Software Prototyping Model?, Prototyping Model Phases, Types of Prototyping and Difference between Prototype and Actual Product.

Session-II (Prototype Techniques)

In this session he explained Best practices of Prototyping, Advantages of Prototyping Model, Disadvantages of Prototyping Model and Rapid Prototyping Techniques.

Session-III (Hands on Training)

In this session he trained the students in AXURE for generating prototype in HTML and provides link for sharing He also explain about ATOM Text editor which is free and open source used by developers to write code faster and flexible.

Session-IV (Hands on Training)

In this session he explained the Code Charge Studio which helps to develop data-driven web sites or enterprise Internet and Intranet systems. Code Lobster is used for PHP Software Development process which was quite interesting. He also discuss about Cloud9 IDE which supports many programming languages like C, C++, PHP, Ruby, Perl, Python, JavaScript and Node.js.

Feedback by the Students

- This One Day Workshop was really very useful and an Interesting one.
- He interacted with us a lot and he thought us many new things for Software Development Process.
- Needed two to three days training for gaining more knowledge in Software Tools.

One Day Seminar on "Big Data Analytics" – 08.02.2020

Academic Year :	2019-2020 (EVEN)	Date :	08.02.2020
-----------------	------------------	--------	------------

Introduction

This report is regarding about the Seminar from **Mr.C.Surendar, Technical-Head Development, Akkamgroups, Coimbatore, on Big Data Analytics.** At first he started up with the general topic what is related to Big Data Analytics.

Session-I (Introduction to Big Data Analytics)

In the First session he discussed about the basics of Big Data, Artificial Intelligence, Machine Learning, Deep Learning, Cloud computing , Block Chain Technology.

Session-II (Stream Memory)

In this session he explained Stream memory data model and architecture, stream computing. Also he taught Hadoop architecture and its blocks which were quite interesting.

Session-III (R-Programming)

In this session he trained the students in R-Programming for data analytics by hands-on training mode. Students learnt some basic programs in R-Programming tool.

Session-IV (Data Analysis)

In this session he explained the real world data analysis like twitter analysis, sentiment analysis in R-Programming which was quite interesting.

Feedback by the Students

- This One Day Lecture was really very useful and an Interesting one.
- He interacted with us a lot and he thought us many new things like how to analysis the twitter data, Facebook data, whatsapp data.
- Needed two days training for doing some analytical exercises using big data tools.

SUMMARY

Date: 28.07.2018

Name of the course	How to Design Prototype
Course Contents	> Enclosed
Course Outcomes	<ul style="list-style-type: none"> • Understand what interaction design is, the importance of user centred design and methods of user information gathering • Understand how the sensory, cognitive and physical capabilities of users inform the design of interactive products • Understand the process of interaction design, including requirements elicitation, prototyping, evaluation and the need for iteration • Analyse and critique the design of interactive products • Select, adapt and apply suitable interaction design approaches and techniques towards the design of an interactive product.

Seminar on “Importance of Intellectual Property”

SUMMARY

Date:26.09.2018

Dr.P.Ponmurugan, Head – Research and Development, Sengunthar Engineering College, Tiruchengode gave an overview on IPR as well as the different forms of IPR. He stressed on the significant role of IP in an innovation-based economy, different types of IPs, as well as the government policies and schemes for start-ups. He explained the conditions for patenting, non-patentable inventions, trademarks and brand building.

He taught the entire procedure of getting copyrights, as well as the copyright act including for appropriate protection and use in the industry. He further discussed the process of patenting, documentation requirements, patent filing procedure, types of patent applications, and anatomy of the patent.

The seminar was very interactive and informative. Students were highly intrigued with the way, the various aspects of the rights to protect their brain child. The seminar concluded with an interactive Questions session where all the students asked their questions and doubts regarding IPR.

Sir,

Warm Greetings!!!

We would like to conduct a One day Workshop on Application Development using MSP430 Controller for the benefit of KSRIET students on 29.01.2019, 10.30 AM. In this regard we would like to invite you to be our resource person and discuss your valuable ideas and guidelines to the students. We hope you would be able to fit to this event in between your busy schedule. We expect your support and reply.

Thanking you,

Yours Faithfully,

The session started with Prayer song by Final year student Ms.Devi U. Then Welcome Address was given by final year student Ms. Movulica D. The Chief Guest Introduction was given by Mr. P. Premkumar, AP/ECE. During the presentation, the resource person mentioned the key role in gaining competitive advantage in terms of technological gains for achieving higher economic growth in a market driven economy. It is felt that IPR requires greater understanding and attention by the University, industry, particularly the Start-Ups, Research scholars, students. In order to remain competitive and relevant in today's' knowledge based economy; there is always the constant need to research and innovate. At the end of the session vote of thanks was proposed by Ms. P.Janani AP/ ECE.

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about today's globally competitive environment, intellectual property has placed itself on a pedestal in the context of economic growth and is becoming increasingly important. Intellectual Property (IP) is the fuel that powers the engine of prosperity, fostering invention and innovation. The focus of the seminar was to promote the creation, protection & enforcement of the Intellectual Property Rights amongst various stakeholders

IE GUEST SEMINAR PROGRAMME

Write up

The session starts with Prayer song by final year students NISHANTHI & PRINSHITH. Then Welcome Address by Head of Department **Dr. P.Murugesan** welcomes the all respected chief guests and students with immense pleasure. Then Facilitation address has given by Principal **Dr. M. Venkatesan** address to the students to follow our guest lecturer inputs and to concentrate on career. Then the session starts with welcome our guest **Mr.R.Ajith** working under Application Engineer in AXIS Global Automation and spoke about the experience during his projects handled and various industrial robotics technologies. His research interests are robotics and automation applied to real time application. He gave the seminar on industrial automation and its application and discussed about the various research opportunities in the field of robotics & industrial automation domain then gave the guidance to select proper project area. The students gained knowledge in the field of robotics & industrial automation through this guest lecture. At the end of session students interact about the real time scenario and the product development from various domains. Actually the session was interactive could gain some knowledge and vote of thanks given by **Mr.J.Mathan** that your connection with K.S.R Institute for Engineering and Technology does not end when you receive your degree. We conduct seminar and Interaction program every year to make our Industrial trainers & Engineers engaged with us by speaking to students, serving on advisory committees, helping to place students in MNC companies and guiding academic projects.

Sir,

Warm Greetings.

We would like to conduct a workshop on "Machine Learning using R Programming" for the benefit of IV year and III year B.Tech (IT) students on 06.03.2019. In this regard, we like to invite you to be our resource person and discuss your valuable ideas and guidelines to the students.

We hope you would be able to fit this event in your busy schedule. The students will benefit a lot on the topic. We expect your support and reply.

Thanking you,

With regards,

SUMMARY

Date: 19.12.2017

The Management Association in collaboration with the Incubation Cell organized a One Day Seminar on the topic "Intellectual Property Rights". Mr. R. Venkatesan, Assistant Professor, Innovation Ambassador, conducted the session.

Mr. R. Venkatesan started the seminar by talking about what IPR actually is and explained its importance in the real economy. The seminar was very interactive and informative. Students were highly intrigued with the way, the various aspects of the rights to protect their brain-stuff. He also spoke about how startups could benefit the most out of IPR and how it could boost a business.

The different types of Intellectual Property Rights like Copyrights, Geographical Indications, Industrial Design, etc. He used real life examples to make the understanding of the subject at hand better. He also cited his own experiences to help explain the working of IPRs too. The basics of filing IPR, why it is essential, etc were also discussed.

The seminar concluded with an interactive Questions session where all the students asked their questions and doubts regarding IPR.

The session started with Prayer song by third year students. Then Welcome Address was given by Head of Department **Dr. R. Nandakumar**. The Chief Guest address was given by Event Coordinator **P.Saranya, AP/ECE**. This programme helped students to understand the concept, structure, operation of Bio Medical Instruments and gain knowledge about equipment used for physical medicine and the various recently developed diagnostic and therapeutic techniques. . At the end of the session vote of thanks was proposed by **Ms.B.Latha** Asst., Professor/ ECE.

VISION OF THE COLLEGE

To become a globally recognized institution in engineering education, Research and Entrepreneurship.

MISSION OF THE COLLEGE

- Accomplish quality education through improved teaching learning process.
- Enrich technical skills with state of the art laboratories and facilities.
- Enhance research and entrepreneurship activities to meet the industrial and societal needs.

ABOUT COLLEGE

KSR Educational Institutions were established in the year 1984 by our founder chairman Lion Dr.K.S.Rangasamy MJF. Here we have 16 educational institutions in our campus. In that, KSR Institute for Engineering and Technology was one of the Engineering College to our group which was established in the year 2011 with the aim of creating student community with a modernized touch of technology. The institute offers 5 under graduate programme and 4 Post graduate programmes. The college strives to achieve excellence in the field of engineering by providing exposure to latest technologically upgraded infrastructure. The institution aims to mould the student's interest by creating the benchmark where the future begins for these young minds.

VISION OF THE DEPARTMENT

To produce globally recognized mechanical engineers and entrepreneurs to meet industrial challenges with ethical values.

MISSION OF THE DEPARTMENT

- Provide platform to apply and analyse the engineering concepts with state of art laboratories.
- Augment the technical knowledge among the students and the faculty through research activities to meet industrial and societal needs.

ABOUT THE DEPARTMENT

The department of Mechanical Engineering was established in the year 2011 with intake of 60 students now raised with 120. The department is well equipped with all amenities to meet the current industrial requirements. The department has a team of well qualified and experienced faculties. The laboratories are built with standards of industries. The Department is offering PG course with specialisation in CAD/CAM.

Dr.P.Murugesan is Head of Department from 2011 who has the experience of 21 years in teaching and 7 years in research with 40 research publication both National and International level.

WORKSHOP OBJECTIVE

Today's technological approaches provide a platform for the new developments to compete globally. The primary objective of this workshop is to bring together experts from various academic institutions, industries, research organisations and professional engineers for sharing of knowledge, expertise and experience in the emerging trends and providing tips for writing research proposals, journal papers and patent filing.

MAJOR AREAS TO BE COVERED

- ✓ Journal paper writing tips for young researchers.
- ✓ Funding agencies and funding proposal
- ✓ Patent filing

LOCATION

The college stands as colossus at KSR Kalvinagar on Attur - Rasipuram - Erode Road (SH 79), 9km from Tiruchengode and 14km from Erode.

COURSE OUTCOMES

Upon completion of this course the participants can be apply the different concepts of Research and development.

Add value to the organization by developing your people and partners.

Encouraging recent trends and research opportunities.

Respected Sir/ Madam

Sub: Invitation for one-day National level workshop on “**Tips for writing research proposals, journal papers and patent filing**” -
Reg.

We are delighted to inform you that the Department of Mechanical Engineering of KSR Institute for Engineering and Technology is organizing ISTE One Day National level workshop on “**Tips for writing research proposals, journal papers and patent filing**” on 27th February 2018.

The workshop brochure is enclosed for your kind reference. We request you to circulate / display this brochure among the students and faculty members of the related UG, PG Courses and Research Scholars of your institution and encourage them to participate in this workshop. We look forward to the active participation of your students and faculty members to make this workshop a grand success.

Thank you

With warm regards,

PROFILE SUMMARY

- A dynamic professional with more than 4 years of experience in Design Engineering and execution of research FEA ,CFD based projects
- Presently working with Fit Look Design Solutions Pvt. Ltd., Tamil Nadu,India as the production with Design Engineer and Research Analyst of the company.
- Exposure in handling design engineering operations involving design & development, developing detailed drawing for fabrication, co-ordination with clients& internal departments
- Experience in gathering product specifications & designing Product Racks, Special Purpose Machinery, Telescopic Covers, Conveyors, etc. using AutoCAD and conducting structural & thermal analysis of CFD applications using COMSOL & ANSYS
- Skilled at handling multiple tasks and projects simultaneously in challenging environments with excellent relationship management skills

ORGANISATIONAL EXPERIENCE

Since Jul'10 with Fit Look Design Solutions Pvt. Ltd., Erode Tamil Nadu ,India, Design Engineer& Research Analyst

Role:

Design Engineering

- Managing end to end design entailing planning & creation of conceptual & product designs, product engineering & product manufacturing designs, monitoring the on-site activities and final execution for the design plan; developing innovative fabricated designs and ensuring their installation on time
- Conducting various conversion activities such as feature conversions in sheet metal parts, first angle to third angle conversions & vice-versa and 3D model image conversion
- Undertaking reverse engineering activities such as fabrication of assemblies, casting & moulding activities, creating components' assemblies and customising them into any required size & position
- Designing layouts for various machineries & equipment like Industrial Racks and Special Purpose Machineries using Excel & AutoCAD and preparing customer based Material Handling Equipment Design
- Formulating Bills of Quantity & Material to ensure timely procurement of required goods; preparing Cost Estimation Reports and Supplier Contract Reference Detail Documents
- Preparing animations for Racking Walk Through, Mechanism Motion Parts & Assemblies, Pick & Trope and Place, etc. Using Solid Works
- Monitoring development with respect to Cost, Resource Deployment, Time Over-runs & Quality Compliance; evaluating production progress & taking adequate corrective actions; managing the processes of research, design, testing and designing flow control
- Organising, planning & coordinating the entire product design including requirement analysis, finalising parts specifications, designing, verification & validation, etc.
- Ensuring high quality of all components made and suggesting as well as implementing improvements for achieving better quality
- Identifying & developing potential vendors for achieving cost effective purchases of the materials, reduction in the prices & timely delivery; liaising with current vendors/suppliers to inform them of the requirements on time and negotiating costs to achieve cost effectiveness
- Scheduling and rescheduling supplies; budgeting & planning the funds for procurement and sourcing of materials ensuring optimum utilisation of materials and maximum cost savings
- Focussing on the optimisation of process parameters; initiating process improvements for achieving bottom line objectives & productivity targets

Product Analysis

- Working closely with Application Engineers to develop engineering concepts to ensure meeting and exceeding the demands of OEM customers
- Performing finite element modelling activities and simulations using ANSYS Workbench, ANSYSFrontal Solver, COMSOLMultiphysics Software
- Creating Meshing Pre-Processing Utilised in ICEM-CFD, TGrid, ANSA, etc.
- Simulating results and planning for Icepak modelling, CFX and CFD -Post processor to augment thermo-mechanical responses with fluid & flow responses of various applications
- Conducting analysis activities for all applications based on material &geometric non-linear solutions such as creep, plasticity and hyper elastic solutions
- Implementing successful application of FEA in early product development stage to assess & solve structural risks

(Handwritten signatures)

- Providing assistance & support in the development of robust & reliable mechanical architecture by imparting knowledge of material properties, structural dynamics & component-level test methods to the team
- Ensuring that the final products meet the goals set for development, procurement and design components
- Providing in-house consultancy for solving structural failure from drop-test, impact, shock, random vibration and field failures
- Managing & coordinating priorities & targets for the Product Design department, ensuring that the development schedules are met and enabling collaboration of cross-functional teams
- Verifying & validating FEA models through experimentation, hands-on testing and conducting tear down activities of failed products
- Performing Tolerance Analysis and other miscellaneous analytical tasks while contributing to CAE Global Best Practice documentation

Projects Handled:

Project:	Telescopic Cover Design, Textile Machineries, CNC Machine Enclosures CNC Machine Control Panel & Operating Panel
Client:	Craftsman Automation, Coimbatore
Duration:	Contract Basis [2010-2012]
Methodology:	Re-engineering concepts to create models with assembly-onsite
Softwares used:	Solid Works 2012-14, CATIA v5R16, Unigraphics Nx5
Objective/description:	The Equipment was based on design & assemblies. Light weight, high strength & compact designs were developed & implemented to the products as per the client's requirements
Project:	Mezzanine Floor & Crane, Special Purpose Machineries and Special Components
Clients:	Sakthi Engineering, Chennai
Duration:	Contract Basis [2010- present]
Methodology:	Preparing layouts to be consumed by the model and assembly
Softwares used:	Solid Works 2012-14
Objective/description:	Load based product was customised as per the client's needs and changes were made to the structure of the product. Quotations & assemblies with walk through animation flow were made
Project:	Fuel Cell, Heat Exchanger, Centrifugal Pumps & Impellers, Solar Water Heater, Composite Material and Non-Materials in Fibber Composites
Client:	PhD. Scholars & Master of engineering Students
Duration:	2012- present
Methodology:	Preparing literature & survey, defining problems & computational fluid on dynamic basis and comparing solutions optimisation results
Softwares used:	Solid works 2014, COMSOL 4.3, ANSYS 14.5
Objective/description:	The research topics & areas for the research scholars were declared after the confirmation of the abstract body. Literature on varying parameters was prepared and problem identification was surveyed based on the given best performance results numerically and analytically with experimental aspects. Finally, the process was validated to write manuscripts & publish scope indexed journals such as Science Direct, ARPN, etc.

Brief write up about the Program:

The seminar commenced at 10 o'clock. Dr. R. Mani, Professor, Mechanical welcomed the gathering. Dr. Venkatesan, The Principal of the college delivered the principal address. The technical session started with an excellent and interactive presentation on the "patent filing" by Mr. Prem Charles, Director Allinov R&D, India. The importance to file patents and the patent filing procedures were stressed in the presentation. The patents classified into IPC (International patent classification), USPC (United States patent classification) and CPC (Cooperative patent classification).

In the second session Dr. vairavel madeshearar, Kalaivani Research and Development, Erode delivery the tips for writing research proposal and identification of research problem, research sourced and review, statistical tools for research, manuscript preparation for referred journal.

The afternoon third session of the workshop was started by explaining the "journal paper preparation" by Dr. vairavel madeshearar, Kalaivani Research and Development, Erode

The workshop on patent filing created great awareness among students, research scholars and faculty of KSRIET College about the important concepts related to research proposal, journal papers and patent issues.

The seminar came to an end at 4 pm with the vote of thanks by Mr. B. Nirmalraja, AP/mech.

Academic Year :	2017 - 2018	Date :	20.02.2018 & 21.02.2018
-----------------	-------------	--------	----------------------------

Introduction

This report is regarding about the Guest Lecture from **Dr.A.Athif Shah – Head & CEO, ABC Semiconductors** on **IOT Analytics using Raspberry PI 3**. At first he started up with the general topic what is Prototype.

Session-I (Introduction)

In the First session he discussed about the basics of Internet of Things, Javascript and Wireless Sensor Networks.

Session-II (IoT Hardware and Standards)

In this session he explained for best Practices of Wireless sensor network(s) Gateway/hub/concentrator, Mobile network, Mobile operating system.

Session-III (IoT and Artificial Intelligence)

In this session he trained the students interrelated computing devices, mechanical and digital machines.

Session-IV (IoT Communication Protocol, Introduction to Arduino Platform)

In this session he explained the Arduino Basics, Network Accessing Platforms, Bluetooth, Extensible Messaging and Presence Protocols

Feedback by the Students

- This Two Day Workshop was really very useful and an Interesting one.
- He interacted with us a lot and he thought us many new things for Network Accessing Platforms.
- Needed two to three days training for gaining more knowledge in Arduino Platforms.

Report

This report is regarding about the Seminar from Mr. T.Gowtham, Shift Lead, Wipro Technologies, Chennai. Mr. T.Gowtham started by explaining the Intellectual property right (IPR) is the rights granted to the creators of intellectual property and includes trademarks, copyrights, patent, industrial design rights and some jurisdictions and trade secrets. Rather than protecting possessions, intellectual property law protects exclusive rights to use or reproduce the intellectual property (IP). Copyrights protect expression while patents protect inventions and neither protects ideas. The seminar on IPR created great awareness among students about the important concepts related to IPR, copyrights and patent issues. The programme included discussions on the importance of IPR and their protection, an overview on copyright systems in India, identification of IP, patenting tools, procedure, etc.

CIRCULAR

It is planned to organize a Seminar on "IPR basics and Indian Patenting System" for final year CSE Students. The session will be handled by Mr.T.Srihari, Professor, KSRIET, Tiruchengode on 15.07.2016. All the students are asked to attend the session and make use of it. The list of participants are attached herewith.

Seminar on “IPR basics and Indian Patenting System”

SUMMARY

Date: 15.07.2016

A seminar on “IPR basics and Indian Patenting System” was held on 15th July 2016 in our college seminar hall and conducted by **Mr.T.Srihari, Professor, KSRIET**. The seminar aimed to create first level IPR awareness among the faculties, students and young intellectuals about the beneficial aspects of patenting their creative and novel ideas, inventions etc... Such awareness would in turn be highly essential for the promotion of creativity, research and technical advancements as well as application into market.

Dr.T.Srihari started the seminar by talking about what IPR actually is and explained it’s importance in the real economy. The seminar was very interactive and informative. Students were highly intrigued with the way, the various aspects of the rights to protect their brain child. He also spoke about how startups could benefit the most out of IPR and how it could boost a business.

The different types of Intellectual Property Rights like Copyrights, Geographic Indications, Industrial Design, etc. He used real life examples to make the understanding of the subject at hand better. He also cited his own experiences to help explain the working of IPRs too. The basics of filing IPR, why it is essential, etc were also discussed.

The seminar concluded with an interactive Questions session where all the students asked their questions and doubts regarding IPR.

VISION: To produce globally competitive Electronics and Communication Engineers and Entrepreneurs with ethical values

MISSION:

DM1: Impart quality education through student centric teaching and learning process.

DM2: Equip students with Industry driven skills by providing excellent Infrastructure and continuous interaction with academia and Industry.

DM3: Empower students towards research, entrepreneurship and lifelong learning to meet societal needs.

Prof. Moorthy Selvakumaran has completed his B.E degree in Electronics & Communication Engineering from Madras University, M.E degree in Product Design from CEG Campus, Anna University, Chennai and Ph.D in VLSI Design from same Anna University. He has a teaching experience of more than 18 years in various Engineering Colleges in Tamil Nadu.

He has worked well for over more than Nine years with the mission of Institution Quality and their student's outcome. He has assisting many ways in designing the new NBA format with experts for the best Accreditation system in our country. He has given many faculty training programs and Working as **NBA consultant for Engineering, Management School, Pharmacy and Polytechnic Colleges in various states namely Tamil nadu, Kerala, Andhra Pradesh, Karnataka, Punjab, Telangana, Maharashtra, Uttar Pradesh, Delhi and West Bengal.** Currently, he has working as NBA / NAAC Consultant for more than 25 technical institutions across the country.

He has made **four inventions for the house hold appliances** and applied for getting patent right for the same. Currently, he has running an industry (**Sri Selvakumaran Industries, Erode**) to convert his innovative ideas into **workable product for our people and society** development.

He has written a book for Engineering Admission in Tamil nadu, titled **COUNSELLING GUIDE: 2009** – first of its kind in India and also written a book for Medical Admission in Tamil nadu. Since 2009, he has writing the books named as Engineering & Medical Counseling Guide for benefit of plus two & polytechnic students.

In the interest of younger generation, he has taken the first step in Analyzing Engineering & Medical Education in Tamil nadu and made the publication of the same for the development of rural students. He has started a unique Career Guidance and Resource Center in Erode with huge data base information about all the Institutions and Courses available in Tamil nadu. He is the person who does complete data analysis of various entrance examinations, admission process etc. Due to his complete analysis **many students were able to take the right decision for their career.**

The session started with Prayer song by Second year students. The Welcome Address was given by Head of Department Mr. R. Nandakumar. The Chief Guest Introduction was given by Ms. S. Preethi Berlin IV/ECE. In this session, the students learnt how to design and analysis of various antennas for various applications and the necessity for considering the parameters for antenna design like size reduction, broad banding and multi band operations in realtime. Also during the session the students learnt about how to programme and design Raspberry Pi using Embedded in 'C'. At the end of the session vote of thanks was proposed by Ms. S. Monisha IV/ECE.

The session started with Prayer song by College Choir. The Welcome Address was given by Head of Department **Mr. R. Nandakumar**. The Chief Guest Introduction was given by **Ms. S.Kesavan** III Yr/ECE . In this session, the students learnt about the basics of electronics, MOS Transistor Principle and Transistor – Transistor Logic. Students learnt about the IC Fabrication Technology and Design using Microwind Packages. At the end of the session vote of thanks was proposed by **Mr. T. Senthil** Asst., Professor/ ECE.

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about recent technology and share their idea among other students. By this seminar others get to know about the Machining applications as alternate Machining for many uses. By studying this concept we can easily manufacturing the components using machining process.

ABOUT KSRIET

The Aarthi Educational and Charitable Trust have established the Institution in the year 2011. The Institution is affiliated to Anna University, Chennai. KSR Institute for Engineering and Technology has been founded with the noble aim of imparting growth by revamping and sharpening the technical knowledge, attitude and abilities. The Institution cultivates the moral, social and ethical values to produce good and competent engineers to play an important role in the enlistment of educational quality and technology.

The embellishment of the college holds the new doctrine of teaching, will be ideal for students to kindle the dormant spirit towards learning. The proficient stream of faculty along with the well-equipped laboratories and technical support foresee the dream of the students.

Vision and Mission of the Institute

Vision

To become a globally recognized Institution in Engineering Education, Research and Entrepreneurship.

Mission

IM1	Accomplish quality education through improved teaching learning process
IM2	Enrich technical skills with state of the art laboratories and facilities
IM3	Enhance research and entrepreneurship activities to meet the industrial and societal needs

ABOUT THE DEPARTMENT

Mechanical Engineering Department is established in the year 2011 with well-equipped laboratories and dedicated faculty and staff members. The department offers UG Programme in Mechanical Engineering with an annual intake of 180 students and PG Programme in CAD/CAM, Ongoing research in the area of Heat transfer enhancement, Composite, Machine Design and Solar Energy by our faculty members in our department. Our goal is to make our students explore the existing trends and emerge as a competent professional with multi-talented skills to achieve their ambition.

Dr.P.Murugesan is Head of Department from 2011 who has the experience of 17 years in teaching and 4 years in research with 40 research publication both National and International level.

Vision and Mission of the Department

Vision

To produce globally recognized Mechanical Engineers and Entrepreneurs to meet the industrial challenges with ethical values.

Mission

DM1	Impart quality education in Mechanical Engineering through enhanced teaching learning process.
DM2	Provide platform to apply and analyze the engineering concepts with state of the art laboratories.
DM3	Augment the technical knowledge among students and faculty members through research activities to meet the industrial and societal needs.

Respected sir,

Subject: Invitation for National Level Seminar-Reg

On behalf of Department of Mechanical Engineering K S R Institute for Engineering and Technology, I am very pleased to have the honor of inviting you to deliver seminar in our college on 06.03.2017 for Engineering students. We hope that you will accept our invitation and give your favorable consent.

Thanking You,

Yours sincerely,

GUEST LECTURE DETAILS

Guest lecturer : Dr.R. Subramanian, Associate Professor

Working as an associate professor in the department of Metallurgical in the reputed institution of PSG College Of Technology. He is responsible for handling Industrial projects and working over several Research and development projects.

Educational Background:

B.E(Metallurgy), PSG College Of Technology, Madras University-1985.

M. Tech(Metallurgical Engineering), IIT Kanpur-1987

Ph.D(Mechanical Engineering), Bharathiyar University-2001

Guest Lectures:

- Delivered more than 50+ guest lectures in corporate companies & universities all over India
- Handled corporate Training on various MNC & university.

Research Area:

Ceramics, Metal Matrix Composites, Mechanical Behaviour Of Materials, Non Ferrous Extraction, Powder Metallurgy, Surface Engineering and Tribology.

The National Science & Technology Entrepreneurship Development Board (NSTEDB), Dept. of Science & Technology, Govt. of India has sponsored for an "Entrepreneurship Awareness Camp" (EAC) at our college. With a view to expose students as well as faculty to entrepreneurship as an alternative career.

EAC Camp, of 3 days duration (20, 21, & 22 July 2016), is planned in the premises of KSRIET and aims at creating awareness among students about various facets of entrepreneurship while highlighting the merits of pursuing such a career option. In EAC, about 75 students are exposed to different aspects of entrepreneurship, including opportunity guidance, services offered by agencies of support system etc.

Interested students are asked to enrol their names to respective class advisors. For each department 15 students registration is allotted (10 students from final year & 5 students from third year).

No.	Student Name	Reg.No	Department	Year

Class Advisors are requested to give the students name list to respective EDC coordinator.

Entrepreneurship Development Cell at KSRIET organized a seminar about "Converting proposal into hardware" on 21.12.2016. The main theme of the seminar is to guide the students in the path of entrepreneurship. Students are not aware of the Converting Proposal into Hardware. And also they need motivation for hardware design.

This seminar explained about the various funding agencies which are ready to provide funds for converting the proposal into product. Here we guided the faculties to motivate the student's project in a manner of product development and to give awareness about fund proposal for their project. By making students project as product, we can make EDC into "Next Gen IEDC".

Seminar on “IPR and Technology Transfer”

SUMMARY

Date: 04.07.2015

A seminar on IPR was organised by the Department of CSE on July 04, 2015 in the college seminar hall. Adv. *Dr. Balaji Devarajan, Head center for IPR, KPR College, Coimbatore* was the resource person. He gave a brief introduction on IPR and explained the various related terms such as copyrights, patents etc.

Dr. Balaji Devarajan started the seminar by talking about what IPR actually is and explained its importance in the real economy. The seminar was very interactive and informative. Students were highly intrigued with the way, the various aspects of the rights to protect their brain child. He also spoke about how startups could benefit the most out of IPR and how it could boost a business.

The different types of Intellectual Property Rights like Copyrights, Geographic Indications, Industrial Design, etc. He used real life examples to make the understanding of the subject at hand better. He also cited his own experiences to help explain the working of IPRs too. The basics of filing IPR, why it is essential, etc were also discussed.

The seminar concluded with an interactive Questions session where all the students asked their questions and doubts regarding IPR.

Seminar on “How to Create the Innovation Culture”

SUMMARY

Date: 29.09.2015

A seminar on IPR was organised by the Department of CSE on September 29, 2015 in the college seminar hall. Adv. *Mr. Thomas Philip, IBM, Chennai* was the resource person. He gave a brief introduction on a culture of innovation in an environment that supports creative thinking and advances efforts to extract economic and social value from knowledge, generates new or improved products ,services or processes.

There are five techniques of exploring creative thinking it includes analysis, open mindedness, problem-solving, organization, and communication. They focus on a variety of aspects of creativity, including techniques for idea generation and divergent thinking, methods of re-framing problems, changes in the affective environment and so on.

The skills do you need to be innovative is creativity, critical thinking, and complex problem solving. All three of these skills are essential to developing and bringing to life a new innovation that solves a real problem and provides meaningful value. Examples of areas where cultural inventions may take place include: Languages, Legal systems, Political systems. The term 'cultural innovation' refers to innovations in the goods or services offered by a cultural organization.

Sir,

Sub: Invitation to act as Resource Person for Seminar – reg.

Warm Greetings from EEE, KSRIET.

The Department of Electrical and Electronics Engineering has planned to conduct a seminar on “Research Advancements in Smart Grid” for the benefit of students on 10.03.2016. In this regard, we would like to invite you to act as resource person and share your valuable ideas. We are very grateful for your contribution.

Thanking you,

VISION: To produce globally competitive Electronics and Communication Engineers and Entrepreneurs with ethical values.

MISSION:

DM1: Impart quality education through student centric teaching and learning process.

DM2: Equip students with Industry driven skills by providing excellent Infrastructure and continuous interaction with academia and Industry.

DM3: Empower students towards research, entrepreneurship and lifelong learning to meet societal needs.

SEMINAR PROGRAMME- DESIGN AND RESEARCH OF PRIMARY SIDE EQUIPMENTS FOR NUCLEAR ISLANDS

Write up

The session starts with Prayer song by third year students AYYAPPAN G & REVANTHKUMAR K. Then Welcome Address by Head of Department **Dr. P.Murugesan** welcomes the all respected chief guests and students with immense pleasure. Then Chief Guest Address has given by Chairman cum Managing Trustee **Mr. R. Srinivasan** gave the motivational talk to the students. Then Facilitation address has given by Principal **Dr. M. Venkatesan** address to the students to follow our guest lecturer inputs and to concentrate on career. Then the session starts with welcome our guest lecturer **Mr.M.Arunkumar** working under Design Engineer in BHEL spoke about the experience during his projects handled and various. His research interests are design and layout applied to real time application. The students gained knowledge in the field of thermal through this Seminar. At the end of session students interact about the real time scenario and the product development from various domains. Actually the session was interactive could gain some knowledge and vote of thanks given by **Mr.A.Mohanraj** that your connection with K.S.R Institute for Engineering and Technology does not end when you receive your degree. We conduct Guest Lectures and Interaction program every year to make our Industrial trainers & Engineers engaged with us by speaking to students, serving on advisory committees, helping to place students in MNC companies and guiding academic projects.

Brief about the Program:

MERF Talk is one of the forum activity comes under Mechanical Engineers Research Forum (MERF) which helps the students and faculty to get to know about IP is protected in law by, for example, patents, copyright and trademarks, which enable people to earn recognition or financial benefit from what they invent or create. By striking the right balance between the interests of innovators and the wider public interest, the IP system aims to foster an environment in which creativity and innovation can flourish.

Seminar on "Python Programming"

Academic Year :	2015-2016	Date :	10.12.2015
-----------------	-----------	--------	------------

Introduction

This report is regarding about the Seminar from Mr. E.K. Bharanidharan, Senior Quality Assurance Analyst, Cognizant Technology Solutions, Chennai.

Session-I (Algorithmic Problem Solving)

In the First session he discussed about Algorithms, building blocks of algorithms (statements, state, control flow, functions), notation (pseudo code, flow chart, programming language), algorithmic problem solving, simple strategies for developing algorithms (iteration, recursion). Illustrative problems: Guess an integer number in a range, Towers of Hanoi.

Session-II (Introduction to Python Programming)

In this session he explained Python interpreter and interactive mode; values and types: int, float, boolean, string, and list; variables, expressions, statements, tuple assignment modules and functions, function definition and use, flow of execution, parameters and arguments.

Session-III (Control Flow, Functions)

In this session, he trained the students in Conditionals: Boolean values and operators, conditional (if), alternative (if-else), chained conditional (if-elif-else); Iteration: state, while, for, break, continue, pass; Fruitful functions: return values, parameters, local and global scope, function composition, recursion; Strings

Session-IV (Lists, Tuples, Dictionaries)

In this Session, Understanding the Lists- list operations, list slices, list methods, list loop, mutability, aliasing, cloning lists, list parameters; Tuples: tuple assignment, tuple as return value; Dictionaries: operations and methods; advanced list processing - list comprehension; Illustrative programs: selection sort, insertion sort, merge sort, histogram.

Feedback by the Students

- This One Day Seminar was really very useful and Advanced Language.
- Real time sessions by Resource Person
- Needed Value added course for this program.

Report Submission

Date: 14.08.2015

Venue: EEE Seminar Hall

Nowadays, high unemployment rate has been a major problem that government is tackling with. However, there are ways to alleviate unemployment, such as providing education and training for those fostering the spirit of entrepreneurship.

Entrepreneurship development cell of KSRIET conducted the guest lecture on the title "Entrepreneurship Understanding start-Ups". This program was conducted to create interest to become an entrepreneur and awareness about entrepreneurship. All the third year students (85 students) of all departments were participated in this program.

Dr.M.Ramakrishnan, Associate professor, KSR School of Management, KSRCT was the chief guest of this camp. He shared the detailed information about the entrepreneurship. And also he explained the ways that lead us to be a successful young entrepreneur. He created awareness about the various schemes followed by government for budding engineers to emerge as young entrepreneurs. This lecture fed clear ideas to students for writing proposals to central and state government schemes and how to get funding for their proposals.
