Report of the Event

Session started with welcome address by Ms. P. Saranya, Third year EEE followed by Dr. A. Murugesan gave brief introduction of the alumni T. Jeevanandam. The session was started with briefing the job opportunities for electrical engineers by our alumni. He talks about pursuing interdisciplinary activities and the hidden advantages. He insisted that concentrating only on one discipline will result in a low success rate. This realisation has forced us to think beyond a single discipline, opening avenues for interdisciplinary projects. Interdisciplinary studies broaden the exposure as it involves more than one engineering discipline. While the understanding expands, there is a higher chance and scope for research leaps. Also, If student possess multi-domain knowledge, then they can work independently to address the problems as they arise. Students got clear idea about Career opportunities in interdisciplinary domains. Finally the Session was concluded with vote of thanks by Mrs.K.Meenatchi, AP / EEE.
