About Programme /Activity	Storytelling is a conventional art form, used to inform, entertain and educate. It is often used as a medium to ingrain moral values, improve reading and listening skills. Storytelling helps to develop a sense of empathy among children as they put themselves in the shoes of the protagonist. It stimulates their imagination by transporting them to another world. Our Kamban Tamil Mandram students actively participated and learn a lot this competition. It was a great learning experience as the story concluded with a moral which was much appreciated by the students.
