Webinar on "Intellectual Property Rights, Patent and Design Process"

Academic Year : 2021-2022

Date : 18.03.2022

Introduction

This report is regarding about the Webinar from **Dr. T. VELMURUGAN** Associate Professor, PG and Research Department of Computer Science, Head, Department of Computer Applications (BCA), D. G. Vaishnav College, Chennai. At first he started up with the general topic what is related to, Introduction to Cloud Computing and he explained briefly about Data storage techniques and security in Cloud computing.

Session-I

- In this session he explained about the Intellectual property rights which refer to the general term for the assignment of property rights through patents, copyrights and trademarks.
- He also stated about IPR which was initially started in North Italy during the Renaissance era. In 1474, Venice issued a law regulating patents protection that granted an exclusive right for the owner. Protection of IPR allows the innovator, brand owner, patent holder and copyright holder to benefit from his/her work, labor and investment, which does not mean monopoly of the intellect.

Session-II

- In this session he explained that a trademark is a sign that individualizes the goods or services of a given enterprise and distinguishes them from those of competitors. A geographical indication is basically a notice stating that a given product originates in a given geographical area.
- Patent is an exclusive right granted by law to an inventor or assignee to prevent others from commercially benefiting from his/her patented invention without permission, for a limited period of time in exchange for detailed public disclosure of patented invention.

Session-III

- In this session he discussed about the Trade Name: - A trade name or business name is a name that uniquely distinguishes a business from others. Trade Secret: - It is any information of commercial value concerning production or sales operations which is not generally known. The owner of a trade secret must take reasonable measures to maintain its confidentiality. A product, in its final form or intermediate form, in which the elements, or at least one of which is an active element, and whereby

VISION: To impart quality education in the field of Biomedical Engineering by adopting engineering principles.

MISSION:

- DM1:** To acquire the knowledge of medical instrumentation through engineering and related R. & D activities.
- DM2:** To work with hospitals and healthcare industries to enhance practical knowledge.
- DM3:** To develop competencies for employability and entrepreneurship in core and interdisciplinary areas.

Sir,

Sub: Extending our gratitude- reg.

Greetings from Electrical and Electronics Engineering, KSRIET.

Department of EEE convey sincere thanks for your lecture in "Promotion of IPR with Ethics in Business" on 20.11.2021. The students and faculty members get benefited and inspired with your valuable information about the importance of IPR and ethical values in business. The feedback about the program was positive. Our gratitude for your contribution and expect the same in our future endeavors.

Thanking you,

Title of the program	Intellectual Property Rights	Date	26-11-2021
		Time	11:00 AM to 12:30 PM
		Venue	Online
		Number of Participants Attended	70
Resource Person Details	Dr. Gandhiramasamy Technical Advisor, Raga Technologies, Namakkal	Photo of the Resource Person 	
Brief Report of the Program To identify the creative ideas among the students at the initial stage of their projects. To helps them to register their own ideas as a pattern. To identify the existing patterns registered in their own fields. To develop their knowledge in intellectual property rights, include patents, copyright, industrial design rights, trademarks registrations. Students are motivated to do their own ideas and to register that as a pattern. They have understood the awareness about the patterns and their importance. They have gained knowledge in how to register a pattern and how to cross verify the existing patterns.		Sample Photos 	
Outcome of the Program	The participants of the workshop will be able to understand the procedures to convert the research outcome into patents. This training will bring a positive transformation in the faculty member's attitude in their project and research works and get them more focused as well as result oriented, and the process for further commercialization/ technology transfer. This will help the respective academic institutes to find a better placement in NIRF, ARIIA rankings.

Report of the Event

The Session started with welcome address by third year student Mr.S.P.Karthikeyan and followed by a brief introduction about the chief guest and his contributions in various motivating the students towards the entrepreneurship. The chief guest started the presentation with the brief explanation on what is meant by entrepreneurship. He then questioned the students about their interest towards their own business. He then asked the students those who were interested in productizing their own ideas about their efforts and contribution towards the same. He instructed the students to build their concept ideas which will solely be based on the interest and requirement of the consumer. He also added that the best servicing underlie in the effort of the engineer who tries to fulfill his client's needs with simple solution. He then insisted the students to always find the solution for the simple needs in our daily life in order to simplify the living style of the consumer. The session came to an end by the Vote of Thanks delivered by the final year student Mr.P.Gokulraj.

Sir,

Sub: Extending our gratitude- reg.

Greetings from Electrical and Electronics Engineering, KSRIET.

Department of EEE conveys sincere thanks for your lecture in "Emerging Trends of Student Entrepreneurship" on 08.06.2021. The students and faculty members got benefited and inspired with your valuable information about emerging trends in Entrepreneurship. The feedback about the program was positive. Our gratitude for your contribution and expect the same in our future endeavors.

To,

Mr.Balaji Ramachandran,
CEO of Noob Tron Private Limited.

Sir,

Warm Greetings.

We would like to conduct a seminar on "Research Issues in Data Science with Machine Learning" for the benefit of III B.E (CSE) students on 14.09.2021, 09.30 am. In this regard we like to invite, you to be our resource person and discuss your valuable ideas and guidelines to the students.

We hope you would be able to fit this event in your busy schedule. The students will benefit a lot on the topic. We expect your support and reply.

Thanking you,

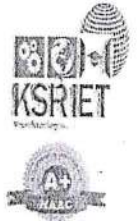

Vimalini

VISION: To impart quality education in the field of biomedical engineering by applying engineering principles.

MISSION:

BME: To acquire the knowledge of medical instrumentation through engineering and related R & D activities.

BME: To work with hospitals and healthcare institutions to enhance practical knowledge.

BME: To develop competencies for employability and entrepreneurship in core and interdisciplinary areas.

Sir,

Sub: Invitation to act as Expert member for Seminar – reg.

Greetings from K S R institute for Engineering and Technology.

The Department of EEE in association with Institution of Engineers (India) is organizing a Webinar on “Research Opportunities in Automotive Electronics Field” on 17.08.2021 online through Google meet. In this regard, I cordially invite you sir, to act as Expert Member for the webinar and share your knowledge for the benefit of the students. In this regard, I request you to kindly make it convenient to attend the same and contribute your valuable ideas.

Report of the Event

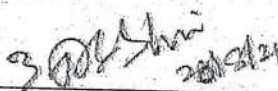

Seminar started with welcome address by Ms. M. Praveena, Joint Treasurer – BEES, followed by Chief guest introduced by Mr. R. Gokulrayar Secretary-BEES. Chief guest Mr. K. Senthil Kumar discussed well about the technologies involved in Automation involved in recent cars. He describe the wide research opportunities in the automotive electronics. He clearly explained his research area in ADAS (Advanced Driver Assistance System). The students also involved in the topic and made interaction with the guest. The students also got the knowledge on design aspects involved in automotive electronics. Guest also explored the various job and research opportunities in the field of automotive industries. Finally he insisted the students get involved in product development and he also inspired the students to do their research. Finally the seminar was concluded by giving vote of thanks by Ms. S. Hemalatha, Treasurer -BEES
