The pandemic and the consequent lockdowns have created a big boom in virtual online learning. Besides students attending their college lectures online, familiarity with virtual learning has generated great interest in online courses as well as blended learning. It will be INTERESTING to hear how our various stakeholders like Educators, Regulators, Industry leaders and Online education providers feel about this development. What can be the strategies to embrace and blend this technological development with our traditional learning methods with the objective of giving students and faculty the optimum learning experience.
