

SEGREGATION OF WASTE

Segregation of waste was carried out by NCC cadets of K S R Institute for Engineering and Technology. The effective importance of Segregation of dry and wet was explained to the cadets and general public. The following waste segregation were done by our NCC cadets at their home town:-

- (a) Biomedical waste Segregation
- (b) Method of waste disposal, ways to reduce waste at home.
- (c) Differentiation between wet waste and dry waste and how to segregate them.
